Hindcopper - Below 135 doors open for 108-117 (200 SMA and DEMA).

Longs Alert take care. Stock looks weak to me below 135.

Hindcopper unable to cross 158 and required bullish momentum missing.
Closing below 135 is weak signal.

Would like to wait n watch before commenting further on this stock.

Dosc: Holding "NO Longs" in this stock. https://t.co/qGAnigXBB7
