Along with police, well-connected and well-intentioned people arrived at the Lindbergh estate. Military colonels offered their aid, although only one had law enforcement expertise—Herbert Norman Schwarzkopf, superintendent of the New Jersey State Police. The other colonels were

WANTED

**INFORMATION AS TO THE
WHEREABOUTS OF**

CHAS. A. LINDBERGH, JR.

OF HOPEWELL, N. J.

SON OF COL. CHAS. A. LINDBERGH

World-Famous Aviator

**This child was kidnaped from his home
in Hopewell, N. J., between 8 and 10 p. m.
on Tuesday, March 1, 1932.**

DESCRIPTION:

Age, 20 months	Hair, blond, curly
Weight, 27 to 30 lbs.	Eyes, dark blue
Height, 29 inches	Complexion, light
Deep dimple in center of chin	
Dressed in one-piece coverall night suit	

ADDRESS ALL COMMUNICATIONS TO

**COL. H. N. SCHWARZKOPF, TRENTON, N. J., or
COL. CHAS. A. LINDBERGH, HOPEWELL, N. J.**

ALL COMMUNICATIONS WILL BE TREATED IN CONFIDENCE

March 11, 1932

**COL. H. NORMAN SCHWARZKOPF
Supt. New Jersey State Police, Trenton, N. J.**

Henry Skillman Breckinridge, a Wall Street lawyer; and William J. Donovan, a hero of the First World War who would later head the Office of Strategic Services (OSS), the forerunner of the CIA. Lindbergh and these men speculated that the kidnapping was perpetrated by organized

crime figures. They thought that the letter was written by someone who spoke German as his native language. At this time, Charles Lindbergh used his influence to control the direction of the investigation.

The deepest banking crisis of the Great Depression was touched off by the pending failure of two Detroit banks in early 1933. For several weeks, by law, every bank in the entire state of Michigan was closed for business. It was from these beginnings that a national banking

crisis engulfed the final days of the Hoover Administration. What transpired to bring on such a calamitous event? How did individuals cope in that interval without a banking system?

In April 1932 he arrived in Detroit with Frida Kahlo and both of them produced much work there over the course of their stay. Rivera was commissioned to produce murals of Ford's factory for the Detroit Institute of Art. The unveiling of these murals enraged some Detroiters and

inspired others. The two mixed uneasily amongst the high society of Detroit. Kahlo especially disliked the city ("Mr. Ford, are you Jewish?" she asked at a social function), but when the two left for New York in 1933, they possessed a check for the princely sum of \$25,000. The

commissioner of the murals? Edsel Ford. By February 1933, First National and Guardian National were on the verge of death. Through their official channels, they reached out for a loan from the Reconstruction Finance Corporation, a newly created initiative by Herbert Hoover to

provide financing and support to struggling American businesses. The Secretary of Commerce, Roy D. Chapin (himself an auto man from Michigan), was dispatched to Detroit to ascertain the situation and to make a decision.

Ford had already done this on previous occasions, and his own company was coming off of the huge financial losses of 1932 mentioned above. He explained that he was unable to provide further assistance, even after much pleading and negotiating from Mr. Chapin and from banking

leaders. He also asserted that should the banks continue to waver, he would be forced to withdraw Ford's assets from them. By February 13 it was clear that Mr. Ford's mind could not be changed. Furthermore there was an imminent threat of Ford triggering the collapse of these two

banks himself (to save his own assets) upon resumption of business the next day, after a long weekend.

Thus on February 14 at 1:32 in the morning a general banking holiday was declared in Michigan by Governor William Comstock. The prompt action was in direct response to the

threats of Henry Ford. Across the state of Michigan people woke up on that Tuesday morning to the knowledge that they would be able to withdraw no cash from their accounts for the next eight days.

On a national level, other papers implored their readers not to take the case of Michigan too seriously. The New York Herald Tribune stated, "... it is well to bear in mind that the banking situation in Detroit is by no means typical of that of the United States as a whole." and

continued with a litany of how Detroit's troubles were especially severe. Unfortunately these words proved to be far from prophetic. By the time that Roosevelt was inaugurated, 37 states had

suspended their banking operations. In each case there was a growing sense of dread that

the national system was dying -- that the economic calamity of 1929-1933 was but a precursor to even darker times ahead. In many towns, the economy functioned on "scrip" or outright barter.

In any case, the two men and their confidants dined in icy silence on March 3, 1933 as the country lie in shambles. Two days later, Roosevelt declared a federal banking holiday. Within a week he had pushed the drastic Emergency Banking Act through Congress to provide some

semblance of stability. His first Fireside Chat was dedicated to explaining these measures, and most Americans approved heartily.

In this long interval, the banking system in Detroit was reorganized. The Reconstruction Finance Corporation worked with Alfred Sloan, president of

General Motors, to create the National Bank of Detroit. This bank received federal funding and assumed the assets of the two failing banks -- First National Bank of Detroit and the Guardian National Bank of Commerce. Sloan committed a substantial amount of G.M. capital to the

new institution while Henry Ford continued to remain on the sidelines. This perhaps ensured that the phrase, "What's good for Ford is good for America." would never enter the national lexicon.

NBD was founded in 1933 in Detroit in the midst of widespread bank failures during the Great Depression. Spurred by the Reconstruction Finance Corporation (RFC) to help stabilize the nation's banking system, NBD's shares were initially equally owned by General Motors (GM) and

The **National Bank of Detroit (NBD)**, later renamed **NBD Bank**, was a [bank](#) that operated mostly in the [Midwestern United States](#). Following its merger with [First National Bank of Chicago](#), the bank was ultimately acquired and merged into [Bank One](#), at which point the NBD name was discontinued. Today, what was once NBD is owned by [JPMorgan Chase & Co.](#)

by the U.S. government under the RFC. The bank opened for business on March 24, 1933.[1][2][3] Charles T. Fisher Jr., of the automobile body manufacturing family became a Director and the President in 1938, serving until his death in 1958. By 1945, GM had divested its ownership

of bank stock,[4][5] and by 1947 RFC had ended its involvement in the bank as well.

The merger was finalized on December 1, 1995 with the formation of the First Chicago NBD Corporation.[74] On that date, stock for the new company began trading on the New York Stock Exchange under the symbol "FCN".

In February 1996, First Chicago NBD sold all of their NBD offices in Ohio to Fifth Third Bancorp.

On June 17, 1858, the Bank of the Ohio Valley opened in Cincinnati. On June 23, 1863, the Third National Bank was organized. On April 29, 1871, Third National Bank came into

On June 17, 1858, the **Bank of the Ohio Valley** opened in Cincinnati. On June 23, 1863, the Third National Bank was organized. On April 29, 1871, Third National Bank came into possession of Bank of the Ohio Valley and by 1882 the bank's capital was around \$16 million, considered to be the largest bank capital in the state at the time. In 1888, **Queen City National Bank** changed its name to Fifth National Bank.^[5]

On June 1, 1908, Third National Bank and Fifth National Bank merged to become the Fifth-Third National Bank of Cincinnati; the hyphen was later dropped. The merger took place when [prohibitionist](#) ideas were gaining popularity, and it is legend that "Fifth Third" was better than "Third Fifth", which could have been construed as a reference to three [fifths](#) of alcohol.^[6] The name went through several changes until March 24, 1969, when it was changed to Fifth Third Bank.

In November 2008, the [United States Department of the Treasury](#) invested \$3.4 billion in the company as part of the [Troubled Asset Relief Program](#) and in February 2011, the company repurchased the investment from the Treasury.^{[7][8]}

and upstate, many of them a result of his long and fruitful personal relationship with Nelson Rockefeller, for whom he served as an adviser.[

Among Harrison's most noted projects are the Metropolitan Opera House at the Lincoln Center for the Performing Arts and the Empire State Plaza in Albany; he also served as Director of Planning on the United Nations complex, which was built on slaughter-house property contributed

by the Rockefeller family (the Rockefellers owned the Tudor City Apartments across First Avenue).

Jacques André Fouilhoux (September 27, 1879 – June 20, 1945) was a French-born architect active in the United States from 1904 to 1945.[1] He is most well known for his work on Tribune Tower (Chicago) and Rockefeller Center, early skyscrapers such as the Daily News Building and

Jacques André Fouilhoux (September 27, 1879 – June 20, 1945) was a French-born architect active in the United States from 1904 to 1945.^[1] He is most well known for his work on [Tribune Tower](#) (Chicago) and [Rockefeller Center](#), early skyscrapers such as the [Daily News Building](#) and [RCA Building](#), and the 1939 [World's Fair](#) in New York, for which he designed the central [Trylon and Perisphere](#).^{[2][3][4]} Many of his early works are also listed in the [National Historic Register](#), including [705 Davis Street Apartments](#) and Wickersham Apartments in [Portland, Oregon](#).^{[5][6]} According to the [New York City Landmarks Preservation Commission](#), Fouilhoux has received less attention than partners such as [John Mead Howells](#) and [Raymond Hood](#), but was "known as an astute engineer and a painstaking supervisor and his work gained the respect of his collaborators."^{[7][8][9]}

Jacques André Fouilhoux

RCA Building, and the 1939 World's Fair in New York, for which he designed the central Tylon and Perisphere.

Jacques André Fouilhoux, better known as J.A. Fouilhoux throughout his career in the United States, was born to a Catholic family in Paris, France on September 27,

1879. He attended the Lycée Janson-de-Sailly in Paris, and went on to earn B.A., B.S. and <https://t.co/NgmS5ssG20>. degrees from the University of Paris (Sorbonne).[7] He was then accepted into the Ecole Centrale des Arts et Manufactures, where he studied architecture as well as

civil and mechanical engineering.[4] Following his graduation, he moved to the United States in 1904 and began his architectural career as a draftsman for Albert Kahn in Detroit.[10] In 1908, he and Jean Butler Clark of Baltimore married in New York.

Kahn was also responsible for designing many of the buildings and houses built under direction of the [Hiram Walker](#) family in [Walkerville, Ontario](#), including [Willistead Manor](#). Kahn's interest in historically styled buildings is also seen in his houses in Detroit's [Indian Village](#), the [Cranbrook House](#), the [Edsel and Eleanor Ford House](#), and [The Dearborn Inn](#), the world's first airport hotel.

Kahn designed the 28-story [Art Deco Fisher Building](#) in Detroit, now a designated landmark and considered one of the most beautiful elements of the Detroit skyline. In 1928, the Fisher building was honored by the [Architectural League of New York](#) as the year's most beautiful commercial structure. Between 1917 and 1929, Kahn designed the headquarters for all three major daily newspapers in Detroit. His work was also part of the [architecture event](#) in the [art competition](#) at the [1928 Summer Olympics](#).^[12]

On May 8, 1929, through an agreement signed with Kahn by [Saul G. Bron](#), President of [Amtorg](#), the [Soviet government](#) contracted Albert Kahn Associates to design the [Stalingrad Tractor Plant](#), the first tractor plant in the [USSR](#). On January 9, 1930, a second contract with Kahn

Under these contracts, during 1929–1932, Kahn's firm, at its headquarters in Detroit and the especially created design bureau in Moscow, Gosproektstroï, trained over 4,000 Soviet architects and engineers and designed over 500 plants and factories, including Chelyabinsk Tractor

Saul Bron

Saul Grigorievich Bron (Saul G. Bron, S. G. Bron; [Russian](#): Саул Григорьевич Брон), (25 January 1887, [Odessa](#) – 21 April 1938, [Kommunarka](#), [Butovo](#)) was a Soviet trade representative in United States and Great Britain. He is best known as Chairman of [Amtorg Trading Corporation](#) in [New York City](#) (1927–1930) and Chairman of the [All-Russian Co-operative Society \(ARCOS\)](#) in [London](#) (1930–1931). He became a victim of [Stalin's Great Purge](#) and was executed on 21 April 1938. He was posthumously rehabilitated in 1956.
