Since 1980-90s WS successful ongoing intentional strategy to blend w/fundamentalist W Christian & infiltrate/integrate/take over these spaces; emerging in homeschooling tied to natural CB, attachment style parenting, Le Leche League, Natural child rearing & ecological mov'nts

> The problem is that a lot of people on the left don't seem to realize just how much of the crunchy wellness space is taken up by various flavors of far right Christians, which made it a soft target for long game indoctrination.

Theres not a lot 1 can do abt this either. There are SOME divisions but not as many as one might like to think & there are an infinite number of fuzzy boundaries ie., as in vaccinations. This is a highly fluid & often volatile life stage to navigate married or single & 2/

things are muddy as hell (this is an area I've researched tracked, and personally experienced as part of that natural child birth community). Women are isolated by society and thats a problem on both the right and the left. Women are vilified & looked down on when they do 3/

have kids, and are pilloried if they stay home, go to work, if they breastfeed, for how long or not and are essentially cut off from an elder community that might help them navigate the enormous shift in their lives not to mention having to put up with petulant manbaby 4/

husbands who drag them via their own negative ideals, expections, insecurities fears angers hurts at the sudden usurping of their position as number 1 in a womans life when she has a baby, & especially the first baby. BOTH WHITE SUPREMACY AND FUNDAMENTALIST WHITE CHRISTIANITY 5/

ARE MALE DOMINATED SPORTS AND IN TIMES OF GREAT UPHEAVAL THEY STEP IN AS "OPPRESSIVE DICTATOR GUARDIANS" SECOND TO GOD.

THIS IS A SOCIAL PROBLEM and both White Supremacists & fundamentalist Christians know it and exploit it for all its worth!

The men in these circles, now 6/

elevated amongst themselves imagine they are now real men now that their sperm has made a baby (never mind that the women did and do all the work) & as lords of their family their word is law...pretty heady bulshit for inadequate White men trying to impress themselves 7/

and each other. And its a recipe for exactly what youd expect down the road if not before.
This IS NOT the LEFT's fault ..
THIS IS A SOCIAL PROBLEM....
Its not just that American White men hate women...its that 8/

White American women hate each other and themselves and thats got Christian roots baby; all the way back, regardless of what side of the isle you sit on.
