## 1/ It really is heartbreaking that so many people are blinded by hate they cannot see the precipice we are careening over. How many times must history repeat itself before humanity truly learns to recognize blind unmitigated hate?

## How has being an American patriot become...

2/ ...a “radicalism” or defect that must be snuffed out?

Everyday hostility towards Patriots or MAGA grows. People who love America, freedom, truth, liberty, & being GOOD are increasingly demonized.

How much history has to repeat before we find ourselves on similar trains?

3/ Everyone picks a side of history to be on. What side will you choose?

4/ There is no sugar coating the truth. Mark my words “Cancel culture” is what started the Jewish Holocaust in the 1930’s. Of the slices of history that we know, we know this for a FACT.

5/ “...Kristallnacht marked the transition of the Nazi policy vis-a-vis Jews from social ostracism, abrogation of legal rights and economic boycotts, to organized physical violence including murder.

6/ ...As such, some consider the November ‘38 pogrom as marking the actual beginning of the Holocaust – the date when anti-Jewish persecution in Germany began moving toward genocide....

... At least 91 Jews were killed in the violence, and 30,000 were arrested and interned in

7/ ... concentration camps (but not extermination camps). Over 900 synagogues and 7,000 Jewish businesses were severely damaged or destroyed.

8/ ... Mass killings of Jews became commonplace following the Nazi invasion of the Soviet Union on June 22, 1941. Death squads called Einsatzgruppen, formed at the order of Reinhard Heydrich, director of the Reich Main Security Office at the

time,

9/ ... were tasked with murdering Jewish civilians and Communist Party officials with the help of local citizens. Historians estimate that between June 1941 and May 1943, these roaming death squads killed over 1 million Jews.
