Thread A History lesson for the MOAB:

1. The United States of America is not and has never been a Democracy, we're a Federal Republic tied together by the capital Laws of the Constitution.

Everyone in the country is about to get a harsh lesson on what this really means...

2. In 1871, February 21: Congress Passes an Act to Provide a Government for the District of Columbia, also known as the Act of 1871.

With no constitutional authority to do so, Congress creates a separate form of government for the District of Columbia.

3. A ten mile square parcel of land (see, Acts of the Forty-first Congress," Section 34, Session III, chapters 61 and 62).■ https://t.co/NG1Yd4y2Fp

4. The act — passed when the country was weakened and financially depleted in the aftermath of the Civil War — was a strategic move by foreign interests (international bankers) who were intent upon gaining a stranglehold on the coffers and neck of America.

5. Congress cut a deal w/ the international bankers(Rothschilds of London) to incur a DEBT to said bankers. Because the bankers were not about to lend money to a floundering nation w/out serious stipulations, they devised a way to get their foot in the door of the United States.

6. Think The Creature of Jerykll Island... https://t.co/Q1LnemlxyT

7. The Act of 1871 formed a corporation called THE UNITED STATES. The corporation, OWNED by foreign interests, moved in and shoved the original Constitution aside. We have 2 Constitutions.

8. With the Act of 1871, the organic Constitution was defaced — in effect vandalized and sabotage — when the title was capitalized and the word “for” was changed to “of” in the title.

9. THE CONSTITUTION OF THE UNITED STATES OF AMERICA is the constitution of the incorporated UNITED STATES OF AMERICA. It operates in an economic capacity and has been used to fool the People into thinking it governs the Republic.

10. Capitalization is NOT insignificant when one is referringto a legal document. This seemingly “minor” alteration has had a major impacton every subsequent generation of Americans. What Congress did by passing the Act of 1871 was create an entirely new document, a different one

11. a constitution for the government of the District of Columbia, an INCORPORATED government. This newly altered Constitution was not intended to benefit the Republic.

12. It benefits only the corporation of the UNITED STATES OF AMERICA & operates entirelyoutside the original (organic) Constitution. Instead of having absolute and unalienable rights guaranteed under the organic Constitution, we the people now have “relative” rights or privileges

13. One example is the Sovereign’s right to travel, which has now been transformed (under corporate government policy) into a “privilege” that requires citizens to be licensed.

14. (Passports) By passing the Act of 1871, Congress committed TREASON against the People who were Sovereign under the grants and decrees of the Declaration of Independence and the organic Constitution.

15. ■ The Act of 1871 -
The 2 Constitutions - Corporate America

16. The government’s own documents that the Constitution has been effectively set aside. In 1933, eleven presidents, both Democrat and Republican, have used emergency powers for the last 67 years to regulate our daily lives without the inconvenience of Congressional approval.

17. The definition of “emergencies” has been stretched to include economic problems, social imbalances, and perceived threats to the US by any foreign country’s actions, even those on other continents.

18. Senate Report■
https://t.co/1WaeF2Rxf6
Written in 1973, says “Since March 9, 1933, the United States has been in a state of declared national emergency…Under the powers delegated by these statutes, the president may: seize property;…

19. seize commodities; assign military forces abroad; institute martial law; seize and control all transportation and communication;…restrict travel; and, in a plethora of particular ways, control the lives of all American citizens.”

20. The president can act through Executive Order, Presidential Proclamation, or through his many agencies, which include most of the alphabet agencies.

21. The framers of the Constitution asserted that Americans have certain inalienable, God-given rights. But under emergency rule, all these rights are declared null and void.

22. The government charges us for these rights by requiring licenses and excessive paperwork, with strings attached, as long as restrictive and ill-defined requirements are met.

23. We have seen in this second half of the twentieth century great advances in technology which have impacted every aspect of modern life. Ironically, though we are living in the “age of communication”, it often seems as if we have less time now to talk or listen.

24. For most, modern conveniences haven’t gotten them off the treadmill; they have only made the treadmill go faster. Quietly, yet rapidly, the small town values of community and common purpose are vanishing.

25. Instead of strength in numbers, we as a nation are increasingly being split into smaller and smaller competing factions, with the cry of “every man for himself’ ringing through the land.

26. It seems that the phrase, “divide and conquer” has taken the place of, “One nation under God indivisible, with truth and justice for all”. Americans are retreating behind the locked doors of their individual homes, afraid to enjoy the sunset for fear of the darkness it brings

27. Almost all the problems we have faced can be traced back to a single point of origin, in a time of national trouble & despair. It was at this point, when our nation struggled for its survival, that the Constitution of the United States of America was effectively canceled.

28. We are and have been in a State of Emergency.

It will take me too long to break this down, to thread, and some of you may be fully aware of this information. As for everyone that isnt familiar with what I am taking about here is the full report on the subject.

39. If you think Trump didn't have the NSA in every phone, laptop, and microwave on the planet on the night of the Election you're actually mentally handicapped.

In the case of a dispute of the legitimacy of the incoming Commander in Chief, election interference, wide spread voter fraud what happens?

46. *From the boards...
DECLAS of FISA on Sunday Jan17th ,2021■

47. FISA is the surveillance apparatus DS uses to vet people entering into government. Get all the dirt they can on someone at the entry and then blackmail them if they want in. This is why so many in Washington are corrupt. They HAVE to be to get in. Play the game & you're in.

48. FISA=START...
They know Trump is going to release FISA. That's why they are tying to impeach him. But the fact is, he already has declassified it. They are too late to the game.

49. Jan 6th was a setup. POTUS needed milltary in Washington for what is about to drop. MAGA rally gave antifa enough time to prepare to storm the Capitol. POTUS shows up late Holds rally longer than expected. Antifa starts without him.

50. See my timeline■
I compiled multiple timelines into one. Cross referenced w/ my research people at who attended Trumps speech could not have breeched the Capitol.

51. *Patriots are spared the brunt of the attack. Dems and Media play their hand anyway. Claim POTUS led the attacks. Call for troops to secure Washington against "unhinged President". Game Theory.

52. *Trump led them from behind. Got them to wall themselves in. Now they are trapped and there's no way out FISA will bring down the house of cards. Media will attempt to block it.

53.* This is the communications blackout. Not done by Trump. Done by Deep State in a last ditch effort to prevent the REVEAL.

Why hasnt Kamela given up her Senate seat yet? 20,000 troops for what reason?

54. What if I said I think the Act of 1871 was dissolved...
