#ICICIBANK futures on short term charts

some recent highs taken out - watching for a close above 774

Also daily chart on 0.25% box size <https://t.co/zjVX8UIXBq>

#ICICIBANK chart is interesting.

On Renko charts - probable multi brick breakout on higher box size (3%) above 774 (on closing basis)

On P&F charts (3% boxsize) a probable triple top buy above 774

On shorter TF closing above 774 gives a close above 45 degree TL <https://t.co/2xq4xumRgz>
