Indian Energy Exchange (IEX) - hope what I wrote would help you to change your psychology. Ride the winners without any bias with a proper SL in place.

> Indian Energy Exchange (IEX) - because you missed the 1st BO maybe at 200/300/400/500 therefore, your brain will keep on saying you - "now it is expensive" but it will keep on going up troubling you more. Perfect trait of a marathon runner. Follow the price with SL. pic.twitter.com/cKH3vnG05l
