#IGL -557

Likely move higher towards 630

#Probability

#IGL -544.80
Fibonacci extension shown in chart.
Now above 6.857%(402) which likely act as support. If price quickly move towards 630 and cross than huge upside open 999-1571-2594-3872.
If fall below 402.Than its part of overall correction.

Long term perspective. #Perception pic.twitter.com/VHQvaN2Wfn
