Republic Day: The Lawyers who helped draft the Constitution of India

Our Constitution was handwritten by Shri. Prem Behari Raizada who took 6 months and used 254 various nibs to write the Constitution. (Image Source - Prem Foundation)

Our original constitution copy was then sent to Survey of India office where these handwritten copies were copied and distributed to its members. Even now, very few copies are freely available in the market.

Constitution of India is not only a beautiful document but a beautifully presented document too. Illustrations include Mohenjodaro period to Vedic and Epic periods to that of Maurya and Gupta Empire.
