Very Well Written..

100% factual aspects are brought out in this text. Circulate this to as many people as you can...

***Dear CJI* & fellow Justices of Supreme Court of India,**

1. A party Wins Lok Sabha elections, gets 303 seats with massive 46% vote share.

■

2. Then it wins state after state to get majority in Rajya Sabha.

3. It passes Kisan Bills in both the Houses, gets President's approval & the Bills become Laws.

4. Some 20-25 K of 1 state sits on road for a month, then you stay the LAWs.

5. What a mockery of the democratic process..!!!

6. Where are our protectors of democracy now ?? Those who were screaming that democracy is being murdered, not so long ago ??

7. The Supreme Court today said, "We are trying to solve the problem in accordance with the Law."

8. Hello Sir ji..! Your job is not to solve a problem (but to judicially decide a case on merits). That would mean you don't want to annoy any party. You want to please everyone. Sorry! you are not here to please people U are here to interpret existing Law & pronounce a judgment.

9. Your job is to say who is right and who is wrong. That's all. Nothing more. Nothing less.

10. But you didn't do that. What do you do? From this country of 130 crore people, you hand pick four people and ask them

to tell you what is their opinion about these Laws.

11. You would ask the Govt elected by 130 crore people to implement the opinion of four people. The wish of 130 crore people expressed through their representatives in the Parliament is insignificant for you.

Dear Supreme Court!

12. If Committee can decide how this country should be governed, why bother about Election Commission, why millions of voters vote?Scrap Parliament save hundreds of crores ! then form various Committees of Experts who will tell U how run the country

13. Or, you can ask GOVT that before they introduce a bill in Parliament, they must 1st bring it before U seek Ur pre-approval.Only after that - you or a Committee formed by U have approved it -it can be taken 2 Parliament for vote. That will save time & effort of lot of people.

14 You said that you have received many petitions against the Farm Laws, but you haven't received a single petition supporting the Laws. I would hold it as the most stupid argument ever made by the Apex Court in its entire history.

15. I mean, what kind of an idiotic argument is this? Let me ask you. The population of this country is 130 crore. We have seen only a few lakh protesting against the Laws at Delhi borders.. Cont...

Even if we take the number of people we have seen participate in various dharna, pradarshans across the country as 1 crore, there are still 129 crore people in this country whom we never saw taking part in these protests.

16. So can we say that 129 crore people are supporting these Laws? Can we? No, we can't. That will be a silly argument.

17. Please don't allow people to make a mockery of yourself. I hope, you know that the protestors have rejected your verdict even before you have given it.

18. We know it very well.These people don't believe in Courts. Didn't you hear the same people say at Shaheen Bagh last year that they don't believe in Supreme Court & they would take over public place 2 bring Government to its knees? Don't you remember that? You certainly do.

19. Then why don't you pass judgments? Why do you dilly dally and let people openly disobey you?

19. Please do what you are supposed to do. Don't do things that you are not supposed to do.

20. Your job is not to solve a problem to everyone's satisfaction. Your job is to pass judgments, interpret the Laws, not stay them..! So just do that.

21. U have no business forming a Committee 2 approve or reject a Legislation passed by Legislative Assembly.
Nor are you God !

22. Thank you for going through the write up patiently. *Please share it with others... only if you agree....*

Good judges make the Law; bad judges kill a good Law...
As received from WA.

Real face of the so called farmers agitation.
