Here are my coffee highlights of 2020: I tried the following roasters from India: Blue tokai, Kapi kottai, Corridor seven, Subko, Curious Life, Black baza, Karma Kaapi, QBF, El Bueno, Beanrove, Third Wave.

Most ordered coffee: Corridor Seven Riverdale, Mind=blown from Kapi kottai, Ratnagiri espresso from Curious Life, BT's Riverdale. Orchardale estate and Hoysala.

Best coffees of 2020 (as per my judgment). 1. Riverdale from BT 2. Curveball from Kapi Kottai 3. Hoysala from BT 4. Producer Lot series 1.

Best and most consistent roaster in 2020: @BlueTokaiCoffee hand down! Great experimentation on the producer series front and also delivering great coffees across 2020. What a comeback!

Best espresso coffee: Hoysala estate and Ratnagiri espresso from Curious Life. Hoysala is an all-rounder coffee, works great with milk also works well for an americano.

I tried close to 32 different coffees in 2020, some really bad coffees and some extremely good coffees.

Overall: 2020 was a tough year for everyone, but roasters/estate owners/farmers and the coffee community did a great job. 2021 is going to be a great year and am super excited about this!

Last bit: I have become a part-time Aeropress sales consultant :P, convinced 3 of my close friends to switch to Aeropress. Community is growing and folks are eager to try new stuff!
