## All 'HALAL' references removed from APEDA under Modi govt. In a move that finally ends the discriminatory slaughtering practices, Agricultural and Processed Food Products Export Development Authority (APEDA) which comes under the Ministry of Commerce

It has removed all 'Halal' references from its Red meat manual.
There've been complaints in the past abt the Halal system waging an economic Jihad on people from other faiths. This move frm APEDA ll finally put a full stop to the institutionalisation of this discriminatory system

Here is a explainer how it affected us, especially Hindus. How it is being used in anti India activities, killings, bombing and attacks. Also, organised protests like anti CAA protests and creates unrest in country.

There was demand of of setting up a Sharia compliant Islamic banking system, which the current Modi govt refused to accede to.
Islamic or Sharia banking is a finance system based on the principles of not charging interest, which is prohibited under Islam.

India’s culture & civilisation through the ages been tolerant and inclusive, ‘Independent’ India has been under the grip of a westernized idea of ‘Secularism’. Successive govts have bent over backwards to cater to the whims & fancies of the minorities to ensure votebank.

This twisted ‘secularism’ has resulted in much suffering for the Hindu majority of the nation. While the Constitution calls for equality, Hindu temples have been taken over by the govts zealously while liberally funding Hajj and Jerusalem ‘pilgrimages’.

Despite this, the common Hindu suffers silently & continues to pay taxes hoping that some day the conditions will change, which unfortunately has not happened till date.
The halal economy tries to impose a wholly Islamic system in the production-to-consumer chain

Its not psbl for companies to employ only Muslim employees when operating in non Islamic countries. So they've been given some special ‘concessions’ They're ‘allowed’ to pay hefty fee to obtain a (renewable) halal certification. This is used to strengthen Islamic finance system.

Earlier, non Muslim subjects under Islamic rule were forced to pay a ‘protective’ Jizya tax (to be exempt from conversion). Similarly companies are being ‘asked’ to pay up large sums of money as ‘halal certification fees’ if they want products to be certified for use by Muslims.

A person has the Constitutionally given right to demand for products that are in line with his religious beliefs. Muslims have started exercising this right by demanding that every product that they use is compliant with the tenets of Islam i.e. Halal.

This has led to the ubiquitous need for the products to be ‘Halal Certified’. So now, the Islamic Economic system (Halalonomics) has crept into our Secular system. Surprisingly, Halal compliance is mandatory even for govt run companies like the Indian Railways and Air India.

Just because Muslims (who make up 15% of the country’s population) want to consume only Halal meat, their practices are being forced upon the rest 85%. Now the Halal certification is no longer limited to meats, but touches every sphere of our daily lives.

From meats to packaged foods, housing projects to hospitals, medicines to cosmetics; even malls aren't exempt! Any1 who wishes to export their products to Islamic countries has to be Halal Certified. To give u an idea of the immense scale of Halalonomics- standing at $2 trillion

It competes with the Indian GDP! No wonder the entire world is under the Halal certification stranglehold. A parallel economy always has some effect on the functioning of a country. (It could be Hawala system to funnel money to and from India or virtual currency like Bitcoin).

Here, a parallel economic system entrenched in religion is taking shape; which will certainly have an impact on the ‘secular’ fabric of India.
Halal economy is growing at a frantic pace & handled through Islamic private bodies. Govt has absolutely no control over these bodies.

Now its a matter of serious concern how these funds are utilised. Australian politician (National Party of Australia) claimed money generated from halal economy may be used to push for Sharia law in Australia & fund Islamic extremism, funds may be utilised to support terrorism.

In India, Jamiat Ulema-e-hind halal trust is one of the major Halal certifying bodies. It was established in 1919 to protest against British occupation of India. This organization, along with the INC, played a role in freedom movement. However partition split organization into 2;

Jamiat ulema-e-islam faction supported a separate nation for the muslims & shifted to Pak. Now JuH is a powerful entity in religious as well as political circles.
During Anti CAA protests, Bengal state chief of JuH threatened tht HM won't be allowed to step out of Kolkata airport

This organization also declared that it will fight in favour of accused of murdering Hindu leader Kamlesh Tiwari of UP. In past, JuH has also provided legal support to the muslim accused in several acts of terrorism including the 7/11 Mumbai train blasts, 2006 Malegaon blasts,

German Bakery blast (Pune), the 26/11 attack on Mumbai, the serial blasts of Zaveri Bazaar in Mumbai, Delhi’s Jama Masjid blast & the Karnavati (Ahmedabad) bomb blast among others. Jamiat is fighting cases on behalf of about 700 such accused.
