Upachara - "■■■■■"

Refers to the offerings and services made to Bhagwan as part of worship. In shastras there are a count of upachara pujas we do.

■■■■ ■■■■■ ■■■■ - 5 Upacharas

■■■■■■■■■■ ■■■■ - 16 "

■■■■■■■■■■■■■■■■■■■■ ■■■■ - 64 "

Out of these panch is used for daily puja.

Some use 16 upacharas who are well versed with the way of doing it Effortlessly and have abhishekam at home daily. 64 is exclusively for festivals and special vrat. One can choose to do 5 upacharas daily and finish your puja peacefully.

How to start your Puja ?

1. Shudhikaran & Aachaman
2. Bhootashudhi & Pranayam
3. Sankalp
4. Choice of Upachara Puja
5. Aarti
6. Pradakshina
7. Mantra Pushpam
8. Bhoomi Sashtanga/Panchanga Namaskaram

Major pujas steps one should ideally follow

Shudhikaran & Achaman

After bath and dressing with (washed clothes only) should arrange their requirements for puja.

Take water separately for Achaman and Puja. Water shouldn't be used from same paatra ideally. Perform Achaman as per your practice & for beginners - YouTube

Bhoota Shudhi and Pranayam

Bhootashudhi is performed to clear out negative energies around and activate the Bhootas around. This is done by sprinkling water in all directions of Dikpalakas. Special pujas have Nyasa as part of this. Pranayam is compulsory for Breath control.

Gayatri and sandhyavandan is Compulsory for Dwijas. Adwijas who haven't got initiated can perform Surya Araadhna by performing Arghyas. This is individual specific again some Adwijas might be initiated to mantras too so they perform. This step shouldn't be skipped.

Sankalp

Manifestation is nothing Nitya Sankalp Puja \U0001f64f\U0001f3fc

The concept of Sankalp in nitya pujas is a very strong way to stay determined, positive and get the desired results by attracting the nature's positive auras. This process is practiced since the vedic times.

Sit peacefully eat some prashad and give it to your family members. It is very important to share and eat the prashad. If a man eats without sharing it won't fructify. So share the prashad even if it is little and eat all family together and stay blessed together.

If you aren't able to do all as a beginner, start learning each step. Basic non skippable are

1. Achaman
2. Panchupchar
3. Aarti

Rest all you can slowly incorporate based on the speed.
