Symbolism comms allow hiding messages in plain sight, classified data updates, or signals to coordinate crimes.

e.g. I decoded a song that implied Mi6 + CIA used the Radio to coordinate the removal of JFK.

I've gotten a lot of requests to decode the new 17/Q Minute Bob Dylan song about JFK's murder.

So first up this isn't a new song except in that it's just been released. The question of why wasn't it released before is worth considering.
