irctc

approching upper trendine , might took a small pause or need to break resistance with good volumes

target was 2900 , made high 2897 , with just 3 points short.

booking some positions as reached near resistance , will add near supportive trendline,

holding rest for 3600 https://t.co/2H0myGPgu5

Itctc

Entered 2800 \u2705

Heading towards 2900 target

Then 3600

Holding personally in folio \U0001f44d https://t.co/jd2OOQTSLs
