KAI INSTA LIVE 201205

"Everyone, seriously watch me a lot, studio dance is coming today you need to watch that, tomorrow the recording is really early. Mmmh reached 20M and Instagram reached 10M. I'm feeling good. Film KAI also received lots of love. It was made really well."

"The person who filmed it and I had worked before also. I trusted him and did it. We had lots of meeting. They really listened to all my opinions, I was really thankful. Jongin-ah you did well. I don't really have strength in the morning. Everyone have fun. "

"Of course I'll work well. I'm really nervous actually. I'm worried but behind me since I have EXO-L I keep having strength."

"I have lots of practice videos. If we keep reaching new milestones, I'll release all of them. I really liked today's outfit. The stage, performance, and dance if I keep doing the same it can be displeasing. But I think what I'm doing now is cool."

"I'll have a lot of chances to go Mmmh later on right. Yesterday the clothes were a bit big (?). I also felt while uploading the video my legs are really long."

"Anyways I'm so happy after reaching 20M that I came to do the live. The thought I had was to just to do it (solo debut) to repay all the love you have given me til now but now we got 20M views I'm so happy. I'm really happy. It's fun."

"Even though you really liked reason, I did a confession spoiler too I put it as a non title, next time I'll show it to you again. If there wasn't corona I could've done showcase or a tour. Because of time I couldn't do all the choreographies"

"Reason was made quickly (choreo) to show you all. The full choreography is really hard. Everyone I need to go now, have a nice dinner and a good time. Whenever you have time watch everything that comes out of me. I'll shower and sleep. Since I have to leave early tomorrow."

"Look forward to tomorrow's outfit, I love you, bye."
