I said 20-25% #CDMO (Synthesis) growth going forward in @IIC_Conference June 2020 conclave. They have delivered better than my expectations.

Never Knowingly Misguide.

Money making and fake advisory/PMS propaganda has never been my agenda

In just 15 years, [#LaurusLabs](#) has scaled up like no other..!

Numbers v Narrative: Well balanced 2800 Cr sales + huge competitive advantage in terms of IP/patents/synthesis capability!

Comparing Laurus with others - 1 hrs 28 mins\U0001f447<https://t.co/Zzx6AwHZLH>
