I said 20-25% #CDMO (Synthesis) growth going forward in <u>@IIC_Conference</u> June 2020 conclave. They have delivered better than my expectations.

Never Knowingly Misguide.

Money making and fake advisory/PMS propaganda has never been my agenda

In just 15 years, <u>#LaurusLabs</u> has scaled up like no other..!

Numbers v Narrative: Well balanced 2800 Cr sales + huge competitive advantage in terms of IP/patents/synthesis capability!
