■ Many influential business figures, including @JeffBezos, @ElonMusk, and @BillGates. say they learned some of their most important lessons from books.

Here are some that the tech giants recommended adding to your reading list this year. ■

Some of Bezos' favorite books were instrumental to the creation of products and services like the Kindle and Amazon Web Services.

One of those is Walmart founder Sam Walton's autobiography in which he recalls his career.

This Kazuo Ishiguro novel tells of an English butler in wartime England who begins to question his lifelong loyalty to his employer while on a vacation.

Bezos has said of the book, "Before reading it, I didn't think a perfect novel was possible."

Elon Musk's must-reads include a number of sci-fi novels.

He read "The Hitchhiker's Guide to the Galaxy" as a teenager, even saying the spacecraft in it is his favorite spacecraft from science fiction.

Bill Gates is known to make book recommendations quite often.

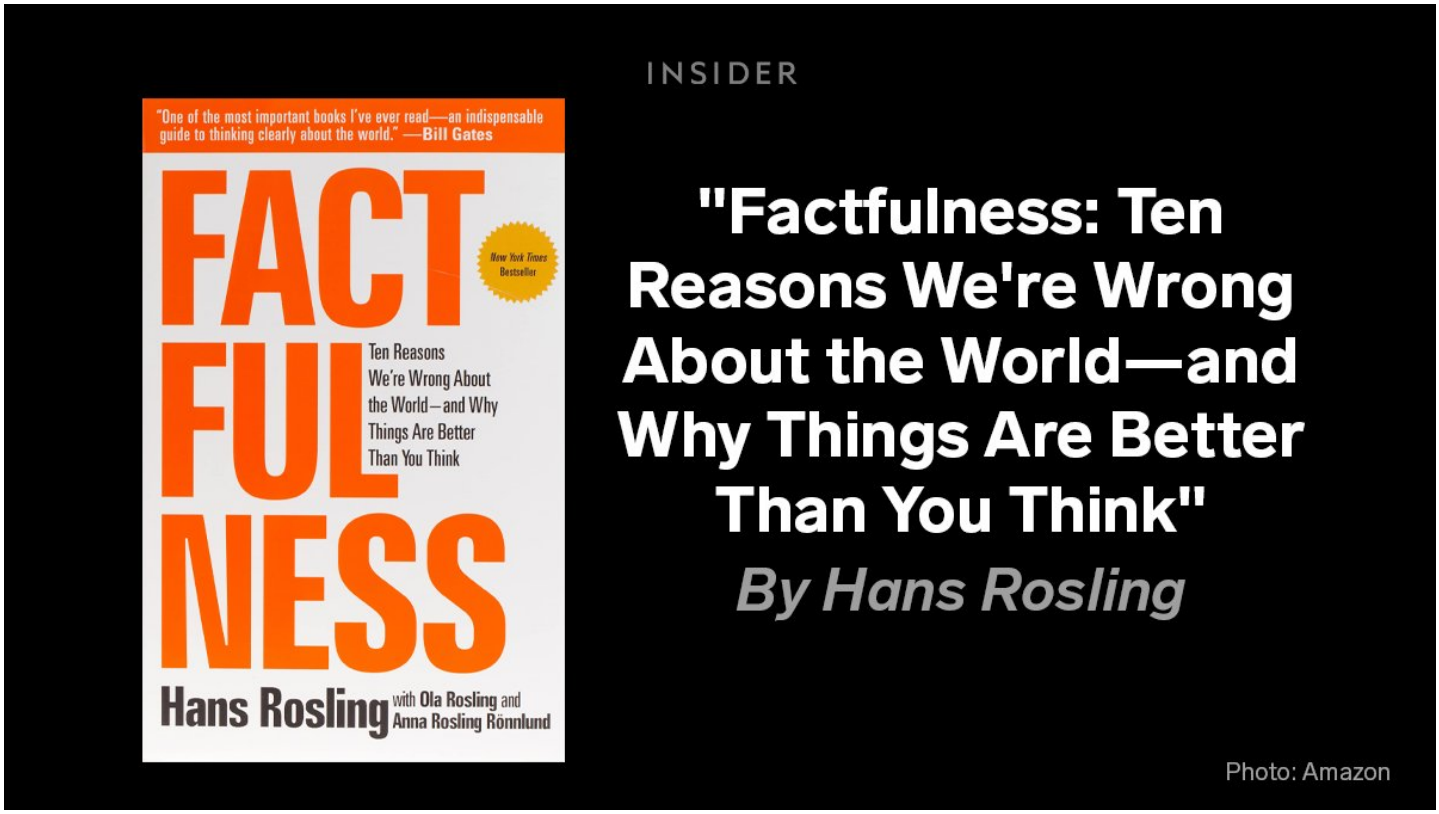

He said this is "the best business book I've ever read," when discussing "Business Adventures: Twelve Classic Tales from the World of Wall Street."

https://t.co/rhjcI1z3JC

Gates has called Hans Rosling's book on thinking patterns and tendencies that distort people's perceptions of the world, "one of the most educational books I've ever read."
