Creating a character is easy! Use any product design tool like Sketch, Figma, XD, or Studio to mix nested components. There are over 584,608 possible combinations (yup, someone did the math!)

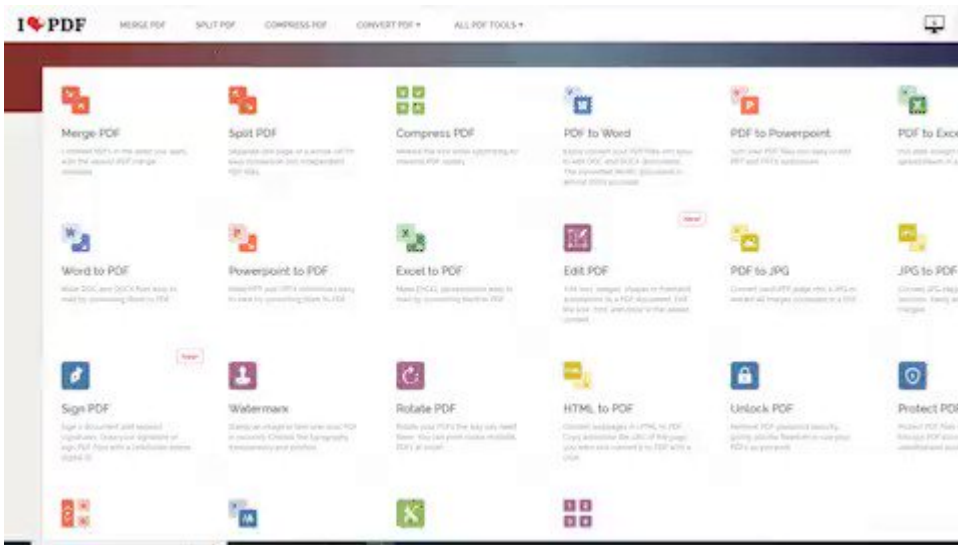

Loom:

Using Loom you can record your screen and yourself at the same time.

iLovePDF:

Using iLovePDF you can get Every tool you need to work with PDFs

Colors:

Using Colors, you can find trending color pallets for all your graphic design needs.

Hemingway:

Using Hemingway you can correct all your wiring mistakes and make you sound better.

Hemingway App makes your writing bold and clear.

The app highlights lengthy, complex sentences and common errors; if you see a yellow sentence, shorten or split it. If you see a red highlight, your sentence is so dense and complicated that your readers will get lost trying to follow its meandering, splitting logic — try editing this sentence to remove the red.

You can **utilize** a shorter word in place of a purple one. Mouse over them for hints.

Adverbs and weakening phrases are **helpfully** shown in blue. Get rid of them and pick words with force, **perhaps**.

Phrases in green have **been marked** to show passive voice.

You can **format** your *text* with the toolbar.

Paste in something you're working on and edit away. Or, click the Write button and compose something new.
