Harvard University is offering free online courses.

No application or fee required.

Here are 10 FREE courses you don't want to miss:

1. Introduction to Computer Science

An introduction to the intellectual enterprises of computer science and the art of programming.

Check here ■

<https://t.co/cPTPFJbBPI>

CS50: Introduction to Computer Science

An introduction to the intellectual enterprises of computer science and the art of programming.

LEARN MORE on edX

January 1, 2019 – December 31, 2022

Free

Online

What you'll learn

- A broad and robust understanding of computer science and programming
- How to think algorithmically and solve programming problems efficiently
- Concepts like abstraction, algorithms, data structures, encapsulation, resource management, security, software engineering, and web development
- Familiarity with a number of languages, including C, Python, SQL, and JavaScript plus CSS and HTML
- How to engage with a vibrant community of like-minded learners from all levels of experience
- How to develop and present a final programming project to your peers

CS50x

DURATION 11 weeks long

TIME COMMITMENT 10 - 20 hours per week

PACE Self-paced

SUBJECT Programming

COURSE LANGUAGE English

VIDEO TRANSCRIPT English

DIFFICULTY Introductory

CREDIT Audit for Free
Add a Verified Certificate for \$495

2. Web Programming with Python and JavaScript

This course takes you deeply into the design and implementation of web apps with Python, JavaScript, and SQL using frameworks like Django, React, and Bootstrap.

Check here ■

<https://t.co/DemRj49O0l>

The screenshot shows the Harvard University course page for CS50's Web Programming with Python and JavaScript. The header includes the Harvard University logo, a search bar, and a 'VIEW ALL COURSES' button. The main content area features the course title, a description, and a 'LEARN MORE' button. A sidebar on the right lists course details: Duration (12 weeks long), Time Commitment (6 - 9 hours per week), Pace (Self-paced), Subject (Programming), Difficulty (Intermediate), and Credit (Audit for Free, Add a Verified Certificate for \$199). Below the main content, there is a section titled 'What you'll learn' with a list of topics: HTML, CSS, Git, Python, Django, SQL, Models, and Migrations, and JavaScript. The page also includes a navigation bar with links for 'Archived', 'Closing Soon', 'Free', and 'Online'.

CS50's Web Programming with Python and JavaScript

This course picks up where CS50 leaves off, diving more deeply into the design and implementation of web apps with Python, JavaScript, and SQL using frameworks like Django, React, and Bootstrap.
