MEANING, EXPLANATION & INTERPRETATION OF YOUR DREAMS, ALSO ITS EFFECTS IN COMING DAYS

Sigmund Freud had explained the interpretation of dreams in the last century, but our scriptures explained this thousands of years back. What is the significance and meaning of our dreams.

These are explained in Kanv shakha of our scriptures.
Dreams in the first quarter(■■■) of the day give result in one year, if the dreams are in the second quarter(■■■■■) the results are in eight months, for third the dreams are fulfilled in three months,

the fourth one takes one fortnight, the dreams of dawn take ten days, morning dreams after you awaken after dream are fulfilled forthright.

If you dream during your tense and worrisome period those are never realized. People with Negative traits never get their dreams fulfilled.

Also your dreams will never be realized after you get up from a dream and then go to sleep again. Never narrate your dreams to others.

You will gain wealth if you see the following things in your dream- cow,elephant, horse, palace, climbing mountains or trees,

You will be victorious if you dream about snake or wasp.

If you are in pain or see a monkey, fish, pearl, conch, diamond, blood, chandan, creepers and mango in a dream, you will be rich.

If you see a statue or a shivling then you will be victorious in your endeavor.

A dream of burning fire, a woman in white attire brings intelligence.

If someone gives you a flower in your hand you will get the Punya of tirth Snan.

Dream about Tridev will get you unlimited heart's desire. If you see yourself with an elephant resting his trunk on your head, then you would be the ruler of the land.

If you see yourself donating something to a Brahmin you will be wealthy.

You will be the ruler or a King if you see a brahmin couple with umbrella or if they are throwing grains all around.

Seeing a dream of well, pond, lake white mountain and white snakes makes you rich.
