how do you know when politicians are GUILTY?
when they attempt to make disclaimers of shock when the People tell them through their acts of public challenge that they are full of sh-- for breaching their fiduciary responsibility.
A-1

There has been documented PROOF of election tampering yet multiple Secretary's of State have signed off on FRAUDULENT ballots and voting, meaning their signed their own GUILTY and COLLUSION verdict...
A-2

The electoral college and congress votes to accept the results after receiving NOTICE OF FRAUD - they are NOW ALL GUILTY OF SELF-CONFESSED MISPRISION OF FELONY, Sedition and TREASON against the United States

Any of have a clue what the penalty is for that?

A-3

Do you also recognize that what was at one point plausible deniability and limited liability has now moved to UNLIMITED PERSONAL liability against each and everyone who voted and certified FRAUDULENT voting results?
A-4

Do you realize that ANY public fiduciary pushing the acceptance of same is their self-confession of being an Accessory After the Fact...
A-5

So, WhereTF is the USDoJ, WhereTF is the FBI, WhereTF is the Military allowing the desecration of this Nation in plain sight by CORRUPT fiduciaries?

Do you think secret military tribunals satisfy PUBLIC NOTICE to the CRIMES we are witnessing?
A-6

Do you think deluding the People by allowing body doubles and clones to walkaround masquerading as legitimate fiduciaries is OK....on any level?
A-7

If you are in the Military, you should be on your knees thanking the True Sovereign for her support and funding and protection...

On the other hand, I AM less than impressed. The lack of PUBLIC enforcement of our Nations's laws demonstrates there is literally NO VALUE in
