16 Experiences You Should Give Your Lover As Her Dominant ■■

These experiences will help to cement the 2 of you into a dominant/submissive relationship, so make sure you tick them off! ■

Let's begin...

1. Begging you for forgiveness ■■■■

When we do something wrong, big or small, then we should be apologising to you and asking for you to forgive and forget what we have done! ■

You can decide how we apologise!

2. Begging for your attention ■

Denying us things in a playful way can really polarise the masculine-feminine energy ■■

Try denying us things that we REALLY want! ■

3. Asking you for permission to do things ■

Things both in and out of the bedroom!

It's polite of us but more importantly it creates more polarity!! (I know I use that word a lot ■)

4. Being restrained with ropes ■

It doesn't matter if you're rope skills are pretty or if it's a mess... at least in the beginning! ■

Rope, straps, cable ties etc. They are all good.

5. Have us nod for you more ■

When you give us commands, make sure we nod too.

Words + Actions = Intensity

6. Allow us to feel 100000% safe around you ■

Try and remove as many worries about money, security, health and our future as possible, then we don't have to waste energy worrying! ■

This is hard to find!!!

7. Listening to OUR fantasies and taking us through them in your own time ■

You're able to listen to our hints and then take us through all of our crazy ideas.

This is on top of already doing whatever YOU want to do! ■

8. Cuddles right after super crazy sex ■

This one might sound really obvious but I think it's important after you've really "degraded" us ■

Super dark to super light emotions! ■

9. Choking us to show us it's not as bad as we thought ■

If your lover has never been choked, she may wonder why people even enjoy it ■

But she will quickly realise after you start! ■

10. Making us feel incredibly beautiful and desired ■

Not with words and compliments, but with your eagerness and devilish looking eyes! ■

Make us feel like your prized property! ■

11. Have us discover what "pleasurable pain" is ■

Slowly increase our pain tolerance during sex and tell us to enjoy the pain because that's as much as we're going to get! ■■

12. Feeling "beneath" you ■

We feel more comfortable when you seem to be better than us at most things!

Including sex! ■

Then being physically beneath you also helps!

13. The feeling of missing you super badly ■

Maybe you need to travel for work, family or something else... it gives us a chance to truly appreciate you!

The more we miss you, the stronger our bond will be! ■

14. Rewarding us for behaviour you like ■

Don't bribe your lover with rewards!

Reward her spontaneously! ■

15. Transforming our view of the world ■

Help us see things that we were blind to before we met!

This has been so important for me, I'm a totally different person because of my man! ■

When you believe something strongly enough, it will rub off on us! ■

16. Having us use our safeword! ■

This means that you have found our limits and are slowly pushing them!

It also means you're brave enough to test how far we can go! ■

These 16 ideas are a good start if you want to take your relationship from poor/average to incredible ■

Your relationship should be working FOR you and not against you! ■■

This is the real reason we care about these things... but they are fun too! ■

Now please go and try!!
