**The last time inflation was this high was Nov 1990**

**Then:**

**Inflation 6.3%**

**2 year treasury yields 7.8%**

**Now:**

**Inflation 6.2%**

**2 year treasury yields 0.4%**

**Which scenario is worse?**

**I guess it depends if you're a saver or a borrower?**

● 2 Year Treasury Rate  
● US Inflation Rate
