None of the attributes like discipline, persistence, consistency or hard work are going to do you any good if you are all over the place and haven't first defined your style and committed to mastering it at the expense of being a mediocre jack-of-all trades. #avoidstyledrift.

> The word is sacrifice. You are not going to be the best at day trading, swing, value and growth investing. It will be amazing if you can master just one. And you only need one. So pick one and sacrifice the rest! There is no other way unless you want to suck at a bunch of things. https://t.co/QVI68eaNHQ
