Here's some trading rules to increase your returns and lower your risk. These are the very rules I use every day. Try it and get back to me.

Mark Minervini's prescription for better returns and lower risk:

1. only trade in the direction of a trade (no trading against the trend or bottom fishing.)
2. sell into strength and nail down profits without worrying about if it will go higher.
3. Without exception keep losses at 1/2 to 1/3 your average gain.
4. never let a decent gain turn into a loss
5. Never get bold when trades are running cold
