Here's some trading rules to increase your returns and lower your risk. These are the very rules I use every day. Try it and get back to me.

Mark Minervini's prescription for better returns and lower risk:

- only trade in the direction of a trade (no trading against the trend or bottom fishing.)
- sell into strength and nail down profits without worrying about if it will go higher.
- 3. Without exception keep losses at 1/2 to 1/3 your average gain.
- 4. never let a decent gain turn into a loss
- 5. Never get bold when trades are running cold
