I did this comparison between Aarti Drugs and Tata Elxsi back in Oct when Tata Elxsi was at 1200-1300. Now it is 4200+.

Here is one more stock displaying similar characteristics: Mayur Uniquoters.

Spot the similarities here in the price action: [#AARTIDRUGS](#)

2013-2015: Monthly RSI goes over 70 and stock goes up 4-5x.

2015-2020: range consolidation

#MayurUniq

Coming out of 7 years consolidation.

Weekly and monthly RSI crossing over 70.

Can it do what Aarti Drugs and Tata Elxsi did in last 1 year?

#MayurUniq

Monthly RSI crossed over 70 in Sep'09 and stayed till Sep'11.

Stock did 5x in that time.
