Networking is important in almost every aspect of life including in the creative space and in amplifying your content.

It comes naturally to some and here a few tips you can make it work for you too online.

> Please help us welcome @malaikadiva to the platform! Like many creatives, Nat wears many hats including being a co-host of @girlinskies and digital content creator. As curator today, she\u2019ll be wearing her podcaster/digital content creator hat. Welcome Nat, over to you! pic.twitter.com/GY7UWNu0lU

Be generous with your “likes”. If you enjoy someone’s content. Tell them! Engage with their content online. Like, share, comment.

By doing so you’re amplifying their content. Guess what - they make return the favour too! Even if they don’t - someone else will.

If you’ve been inspired or your interest was peaked by someone else’s content - don’t hesitate to give them credit.

Most content creators will appreciate that.

Don’t be afraid to reach out to other content creators in your world. Don’t be an island. Create your tribe of creators to support each other.
