Hind Copper - Next multibagger in the making. it can take some more time before that. Keep an eye

Hind copper - Update

Expected to be a multibagger at 62 did 196 so far.

Who says Technical analysts cant pick mutlibaggers ■

What next? 95-100? check next chart

Hind Copper - Break and close below 165 can be a breakdown and expect good correction.

Last bottom 150 which will decide trend change for medium term.

I see a possibility of 90-95 once 150 is broken.

Stay alert

Hind Copper - Test of Technicals ■

1. What do you see bulls?

Whats bears see with regular chart, bulls must see it with inverted chart.

2nd question in next tweet ■

Hind Copper

Question No. 2. What happens when a channel is broken down?

- a. Retest of channel breakdown (95-100)
- b. Channel size target achieved (180-190) hence should test breakdown again.
- c. Should test 120 dotted red line which is immediate resistance
- d. All of the above

Hind Copper 120min chart

what do you see? Ascending triangle?

Bulls safe only above 177, Bears will come into action below 165.
