There are motives behind this defund the police, people are not going be happy with. There is an active plan to federalize the police bring in UN peace keepers which is policed by nato. They corrupt politicians want to do away with Sheriffs not the police force.

This was set in to motion with UN strong cities network. Local police to be replaced by UN's peace keepers aka NATO troops and non-citizen mercenaries through the strong cities network UN to run local police boards U.S. cities. https://t.co/qHBJDtHjFh

I need you to understand what is at stake. It is America as we know it. The goal is to have the Constitution replaced, by the United Nations' (UN) Bill of Human Rights. https://t.co/GOfzSYErf6

Be careful what you wish for not everything is what it seems, these riots and looting will be used to justify their actions leading into the a globalist government having more control.

Pay attention to Bills being pushed by Congress. Pay attention to wording. Pay attention to stories of local Sheriffs threatening to deputize law abiding citizens.all these things are connected.

Remember seeing UN Vehicles on American soil well incase u forgot heres one link about it https://t.co/6hulu5CDFL

They planted the seeds and wrote the bills. HR7120. I predict hr7120 will be re-introduced 117th Congress, possibly in the name of a recent victim of a police shooting.

Rt.@FertilizerMkts The #DefundThePolice campaign is a precursor. We forgot the US signed up to #UN #Kigali Principles. UN police troops can intervene in the US during armed conflicts. EO by #Obama supporting the principles a bill HR 1111 that seems as an early framework for it

- Reducing the existing civilian stockpile
- Reducing domestic gun ownership
- Increasing gun laws to reduce new ownership

In 2015, the US began participating in the UN's SCN. In reality it is actually a new law-enforcement body whose laws will govern participating cities, 46 cities & counting have already signed on as members.

https://t.co/Hamj0qtXc8

Rt.@FertilizerMkts
Law-enforcement measures for these cities will dovetail with or emanate from the Institute for Strategic Dialogue and the United Nations, not from the U.S. Constitution and locally elected officials and the laws governing them.

Rt.@FertilizerMkts
One of the goals of this unrest is to nationalize and globalize American law enforcement to pave the way for tyranny, as proven by their own documents and statements. Obama and the UN were both open about the goals.

Both @FertilizerMkts & I have made several threads on this topic before. Months, years ago. We are currently seeing the plans that were set in motion being played out now, that is why I feel the need to re-share.
