> How to sell option?
> Here let me explain through simple math.
> Say BN at 30000
> 30000 straddle trading at combine premium 800 (based on current volatility)
> Put at 400
> Call at 400
> You don\u2019t know direction. Sold both.
>
> If move will not come than both will decrease gradually.
