#15100 strikes OIs Bullish crossover.... https://t.co/IgXLn1P5F3

#15100 strikes OIs are still away, though 15100PE OI has risen sharply since morning but unable to cross above 15100CE OI.. any crossover intraday shall further fuel up the rally....otherwise Nifty may close below or around 15100 cash levels today. #JUSTaVIEW pic.twitter.com/6aQIPEFx3h
