## Thread on
## "Intraday Banknifty Strangle based on OI data"

## (System already shared, today just share few examples)
## (1/n)

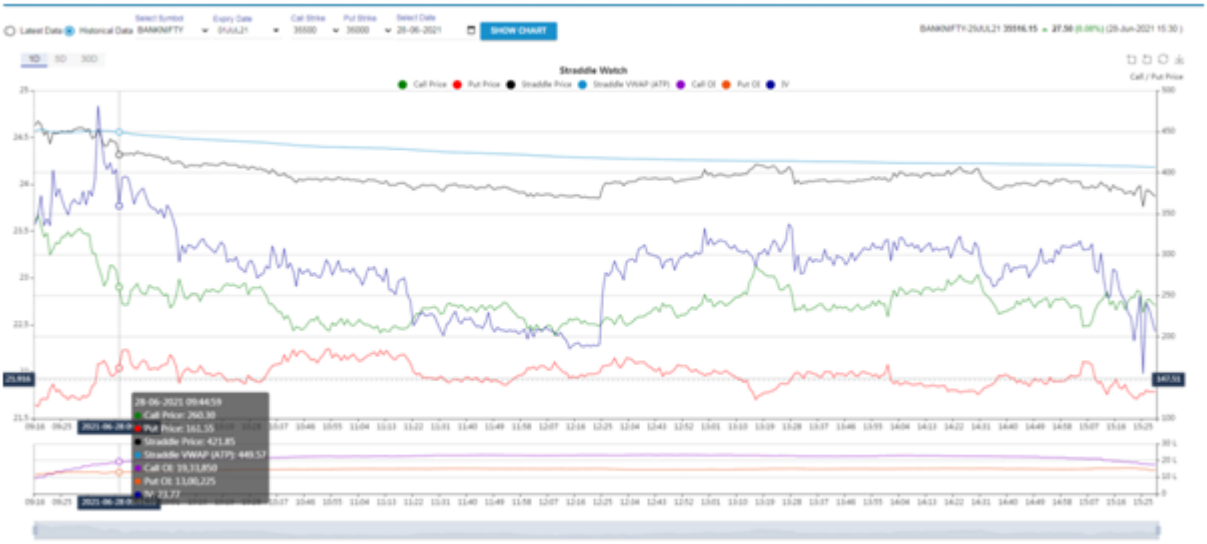

-Trade timing after 9:45

-Check Banknifty change in OI data at 9:45, and identify the highest OI built up in call side and put side

-We will sell both strikes with combined premium as SL on both legs.
(2/n)
