Read your credit report carefully, the number of active, closed accounts etc.

Feel peaceful if everything looks good, but if there are any discrepancies you are not aware of continue reading this.

In case there's something concerning

-Immediately escalate with the platform/product in subject.

-Take strict follow ups, complain on Social Media Platforms.

-Write to the respective credit bureaus, and loop them in.

-If takes more time, Escalate with the regulator (RBI)

My DMs are filled with many requests today, may not monitor.

You can tag me if you've anything to ask and will surely try to respond.
