■ These measures are absolutely unnecessary. Georgia already has some of the most strict voting laws in the country. Besides, the laws we have in place WORKED brilliantly. There was absolutely no fraud outside of the minuscule norms. #gapol

> Georgia is at the center of the effort, with Republicans discussing a sweep of new policies after Biden won the state -- and @GovKemp endorsing new photo ID requirements for absentee ballots. #gapol https://t.co/05FSLXlDy6

Republicans adding onerous laws just to make themselves feel better and disenfranchise voters by making it more difficult to vote is unacceptable. It's also massively hypocritical. Just like we always hear in the #gunrights arguments. 2/ #gapol

Why should I as a law abiding citizen be burdened by adding unnecessary restrictions to a process that is my Constitutionally protected right? Especially when the data do not back up the need for any new laws. A fact to which our state election officials would attest. 3/ #gapol

#JimCrow Why anyone would choose to make it more difficult to vote is beyond me. I should point out that the current restrictive voting laws were put in place by the @GaRepublicans, including no excuse #absenteeballots. 4/

State election officials crowed about how 1.3 million Georgians who voted from home during the coronavirus pandemic, and they should. They did a fine job. But now, simply because the party took losses due to a lack of their voters turning out (their own fault) ... 5/ #gapol

And Dems voted in record numbers, they want to change the rules. How #pathetic. @GaRepublicans seek to eliminate no-excuse #absentee voting, ballot drop boxes and unsolicited #absenteeballot application mailings making it more difficult to vote. 6/ #gapol

Apparently the @GOP believe they can't win otherwise. What happened to the competitive marketplace of ideas? I guess that only matters when the table is tilted in your favor, just like with the out of control #gerrymandering that creates "safe" seats. #hypocrisy #rigged #gapol 7/

I call on my fellow Georgians to reach out to your state representative and let them know you are against this #JimCrow adjacent attempt to disenfranchise millions of voters across the state. The 2020 election was an example of smart process executed by principled government. 8/

A success story that was widely praised, & rightly so. Don't take a step back simply bc of blatant #partisan politics. I implore you to find that same character & principle that guided you through the 2020 election once again. @GabrielSterling @GaSecofState #gapol 9/

Don't be weak. Stand for the free & open marketplace of ideas & may the best ideas win, whosever they are. Do what's right for #Georgia voters by fighting to increase access to the ballot. 10/ @GabrielSterling @GaSecofState @fairfightaction @GeorgiaDemocrat @GaRepublicans #gapol
