I have spent the past 4 years under the tyrannical rule of an out of control Republican Party.
When they rolled back environmental protections they didn't worry about the future of our children & grandchildren.
When they banned LGBTQ from the ➡■

military they didn't worry about people losing their jobs for their sexual preference.
When they banned Muslims & separated families at the border they didn't care that immigrants are humans and suffer like the rest of us. They don't even care that immigrants
➡■

are vital to our economy.
When they degraded women, minorities, lgbtq, even using racial slurs such as "Guido" they didn't care who they offended or that children were listening.
When our troops had bounties on their heads, they didn't care about them or ➡■

the families that worried everyday for their safety.
As they lied & created an alternative reality, they didn't care about the divisiveness they brought upon the country or the degradation of our democracy.
➡■

When they refused to allow the archivist to record the ERA, they didn't care about the women that fought for decades to get it ratified.
They didn't care when foreign actors interfered in our elections.
They ignored if not helped the rise of
➡■

White Supremacy that is now almost as widespread as Covid.
They don't care if they infect other people by not wearing a mask.
They don't care about the incompetence in handling the virus that has led to massive unemployment & has killed over 420k people.
➡■

When our black communities took to the streets in anger & grief over because the people who are supposed to be protecting our communities are terrorizing & murdering them instead, they didn't care.
When they tried to overturn an election
➡■

they didn't care about disenfranchising 81 million people.
When food banks had lines of people trying to get food at Thanksgiving & Christmas, Santa wasn't coming, evictions were looming, they didn't
➡■

care. Some even had the audacity to post pictures of their decadent meals. And now, their continued lies and allegiance to Donald Trump instead of the Constitution proves that they still don't care.
➡■

Not once did they try to reach across the isle or stop to think how their actions would impact other people. They rushed through a SCOTUS appointment because they could. They left a mentally deranged man in the
➡■

White House because of the political repercussions, not the safety of the country.

So let me be clear now. I don't care about bipartisanship. I care about the people of the country, the future of the country, & reversing the path to totalitarianism they took us down.
➡■

Nuke the filibuster. Pass the 1.9 trillion bill. Give Puerto Rico and DC Statehood. Count ever non-citizen in the census. Give everyone healthcare. Protect our environment. After 4 years I no longer care what this
➡■

anti-democratic, repulsive, truth deficient, misogynistic, so called Republican Party that uses guns to make up for their minuscule flaccid manhoods & soothe a myriad of daddy issues, thinks we should do.

They showed us who they are, believe them.
