1. "They're leaving! They're leaving!"" yell seditionist as they watch House members fleeing the floor through the glass doors the only thing (+ some under-armed officers + office furniture" that protected our elected REPs (same ballot as Trump, each & everyone

@McConnellPress

2. of them felt so inclined towards martyrdom and/or possessed the weapons (Jesus, what if they'd has a grenade & guess what, in America, yes, you can come up w functional equivalents of that bc barring people from them is a betrayal of freedom so great we must simply acquiesce

3. their eventual death tolls. One functional "freedom grenade" down that hallway, tossed w ease through a hole in the glass door, could have easily hit anyone fleeing.Unless it was Mo Brooks, MTG, or one of their well-known crazy boosters, here's a thing @LeaderMcConnell ought

4. to reflect upon as he makes his CRITCAL pivot decision, which he could rally 17 people & start a fight for control of the party that rest of the country will help him with,EVEN AFTER ALL THE SHIT HE'S DONE TO PEOPLE, YES, THE REST OF THE COUNTRY WOULD HELP HIM IF HE WAS TO

5. RALLY 17 SENATORS FOR IMPEACHMENT, he'd find his whole ■awakened. And Mitch, as far as I understand it, you could do it anonymously!! How much would THAT fuck w them?? How great would it be, for the 1st time in 5 yrs, to be the one w power- you LOVE power! Think of the FUN!

6. Imagine- I could use those anonymous votes @McConnellPress to f w Trump SO HARD. It could you, yes. But it could Cruz. He's a double crossing SOB! If the votes are hidden its NOT gonna be 17. The temptation will be too high. Think of the back stabbing? You want a chance to

7. save your party and I'm telling you, nothing, absolutely nothing delivers this better than an anonymous senate vote. Hell, even if it failed but got to 11 or 15? Oh. there is nothing like doubt to someone like Trump. Its his kryptonite & its all @ProjectLincoln would need to

8. eat him alive. There'd be nothing, mentally left of him to screw w the GOP @McConnellPress
