THREAD: Following multiple defeats in the 2020 election, Georgia Republicans are returning to their voter suppression tactics to hold onto waning power. #HB531, presented by voter suppressor Rep. Barry Fleming, includes several rollbacks on voting rights. ■■ 1/ #gapol

#HB531 could:

■Eliminate Sunday Voting
■Slash 108 Total Available Hrs of Early Vote
■Remove 1 of 2 Saturday Vote Options
■Force Counties To Raise Taxes To Pay For Elections
■Slash Time Counties Can Mail Ballots
■Prohibit Early Voting on Holidays

2/ #gapol

Slash Mail Ballot Application Window By 113 Days
Require Photocopy of ID for VBM App If No Driver's License
Set Restrictive Ballot Return Deadline of 11 Days Before Election

3/ #gapol

Allow Counties To Set Arbitrary Time For Ballot Return On New Fri Deadline
Require Counties To Pay For 24/7 In-Person Drop Box Security Official
Limit Drop Boxes To Only In EV Locations Only During Voting

4/ #gapol

Ban Use Of Drop Boxes After Early Vote Has Ended

Allow Problematic Precinct Splitting That Will Confuse Voters
Ban Mobile Voting Used Primarily At Nursing Homes During Pandemic

5/ #gapol

Ban Giving & Accepting Water While in Long Lines
Loosen Ballot Secrecy Protections
Cut Election Certification Deadline From 10 Days After Election to 5 Days
And, true to their form, Stop New Early Voting Sites From Being Added

These draconian proposals are fueled by the same conspiracy theories that led to the Jan. 6 attack on our Capitol. Georgia voters deserve public servants concerned with protecting and serving the people -- not their own power.
