Trump came to my beloved Omaha. Omaha is a purple city. Trump bussed in a ton of peeps who waited in unseasonably cold weather for him to arrive. After he was done speaking, he left the peeps in the cold FOR HOURS without busses.

Hypothermic people without masks everywhere.

OPD stuck with the mess. We are knee deep in COVID here. Many people had to be taken to the hospital for treatment because of hypothermia.

How do we calculate the toll for this idiocy? This event may turn out to be a huge miscalculation on his part one week from the election.

Trump buses people in and then abandons them at an airport in freezing weather before flying off to another super spreader event.

The event at TAC air is on the opposite side of where the parking is. It took hours to clean up Trump's mess during a pandemic on a freezing night.

Last night in Omaha is a perfect example of who Trump is and the way that he governs. He just keeps finding new lows. How many of those people that ended up going to the hospital last night either became infected or caused infections on their way to and from the hospital?

I hope the good people of Omaha see who @RepDonBacon and Trump are and rebuke them up when they vote. If what happened last night in Omaha is a tipping point, @KaraEastman and @JoeBiden should have a good night on 11/3/20.

If you were one of the people that attended the rally, and were hospitalized due to hypothermia, I would send your medical bills to @RepDonBacon so he can send them to his boss. You were abandoned last night just like the country was abandoned when this virus hit this country.

I hope you all have a full recovery and are not too horribly embarrassed like the rest of us were as we watched this nonsense unfold.

Neither Medicare, nor Medicaid nor any private insurance company should have to pay for any hospitalizations from last night.

The city of Omaha should not have to pay for the hours it took to clean up Trump's mess last night. The medical bills and the hit on the OPD budget should be sent to the Trump campaign. But since the Trump campaign is brokety broke Omaha is stuck with the bill.

I hope everyone in Douglas and Sarpy county remembers what happened last night when #Omahastranded occurred when they vote over these next six days.

We deserve better. We can do better. We must do better than elect Trump for another four years of abandonment and chaos.

What happened last night is not only a reflection of the last four years, it is a crystal ball moment for the next four years.

#Omahastranded is a warning. Please do not vote for Trump.

Please vote for @KaraforCongress @JoeBiden. #BidenHarris2020
