People bellow out "lock him up!" about Joe Biden at Trump's rally in Bucks County, Pennsylvania

"the misery of unleashed work and horror" #wut

Following a remarkably low energy performance in Minnesota on Friday evening, Trump sounds sedated during his first of four rallies on Saturday in Pennsylvania

As 1,000 Americans die each day from coronavirus, Trump calls Hunter Biden's (alleged) emails "the biggest story anywhere in the world"

Trump does not sound like a guy anticipating a big victory in 72 hours. His audience in Bucks County isn't really reacting as he drones on and on.
