■PA Absentee Ballot(AB) Irregularities Deep-dive■

ABs in PA - even if Biden received:
-95% of returned Democrat votes
-21% of returned Republican votes
-80% of returned Independent votes

He wouldn't have as many votes as he actually received

Pennsylvania Presidential Election Voting Breakdown

Candidate	Absentee Ballot Votes	Election Day Votes	Provisional Votes	
Biden	1,995,691	1,409,341	53,168	**3,458,200**
Trump	595,538	2,731,230	50,874	**3,377,642**
Jorgensen	24,783	553,318	1,277	**579,378**
	2,616,012	**4,693,889**	**105,319**	

Pennsylvania Absentee Ballots Returned by Party Affiliation

Party Affiliation	Returned Ballots	% of Total
Democrats	1,702,623	64.8%
Republicans	623,098	23.7%
Independents & Others	303,462	11.5%
	2,629,183	

Theoretical Breakdown of Voting Pattern by Party Affiliation

Party Affiliation	Returned Ballots	% Voting Biden	Biden Votes
Democrats	1,702,623	95%	1,617,492
Republicans	623,098	21%	130,851
Independents & Others	303,462	80%	242,770
	2,629,183		1,991,112

Even with these extreme voting %'s in Biden's favor, he would not replicate his actual Absentee Ballot Votes

I've been consistent on this issue since Nov 4th

I just didn't know what the final vote breakdown of absentee ballots was until now

Biden's final total of 1,995,591 is virtually impossible to explain given the party affiliation of absentee ballot voters

> Biden\u2019s 78% of absentee ballots in Pennsylvania is highly irregular
>
> Ballot harvesting is illegal in Pennsylvania: even having your neighbor mail your ballot is illegal
>
> The election will ultimately be decided in the courts and they can go back to check signatures, witnesses, etc

Don't believe me, let's look at exit polls from election day (Washington Post)

Exit polls show Biden +85% among Democrats meaning

Democrat Voters in PA:
92.50% Biden vs 7.5% others

Let's say this is within the margin of error and 95% is plausible
https://t.co/G5L2eVygiG

The same exit polls show Trump +83% among Republicans meaning

Republican Voters in PA:
91.50% Trump vs 8.5% other

so 21% of Republicans voting for Trump is out of the question

Let's give Biden 11% of Republican ABs in case there was a margin of error in Trump's favor

The same exit poll on Independents

Biden by 51 percent to 43 percent for Trump

So there is no way Biden gets 80% of the Independent vote

Let's be nice and bump it up (■) to 55% of Independents voting for Biden

So with this super favorable percentage of votes for Biden:
-95% of Democrat Absentee Ballots
-11% of Republican Absentee Ballots
-55% of Independent Absentee Ballots

He would still be -143K votes short of his actual total

Independents & Others	303,462	55%	166,904
	2,629,183		1,852,937

-142,754

Even with these favorable voting %'s in Biden's favor (According to WaPo exit polls), he would be 143K votes short of his actual Absentee Ballot Votes

But if we input WaPo's real exit poll data?

Biden is -213K vote shy of his actual total

Some may say that absentee ballot voters behave differently than day of election voters

The problem is that we are dealing with very large data sets here

The probability that 21% of Republicans and 80% of Independent voters would vote for Biden is outside the margin of error

But maybe you insist that there is just something about voting from home that makes both Republicans and Independents more likely to vote for Biden

Fair enough, but now you have to prove it - no "theories"

I've shown a clear irregularity that needs to be investigated

Or you can just use common sense and realize that this doesn't make sense

It's not a complicated analysis - anybody can do it

And I'm using Pennsylvania Secretary of State data for anybody that wants to check my numbers

Pennsylvania Early Voting Statistics

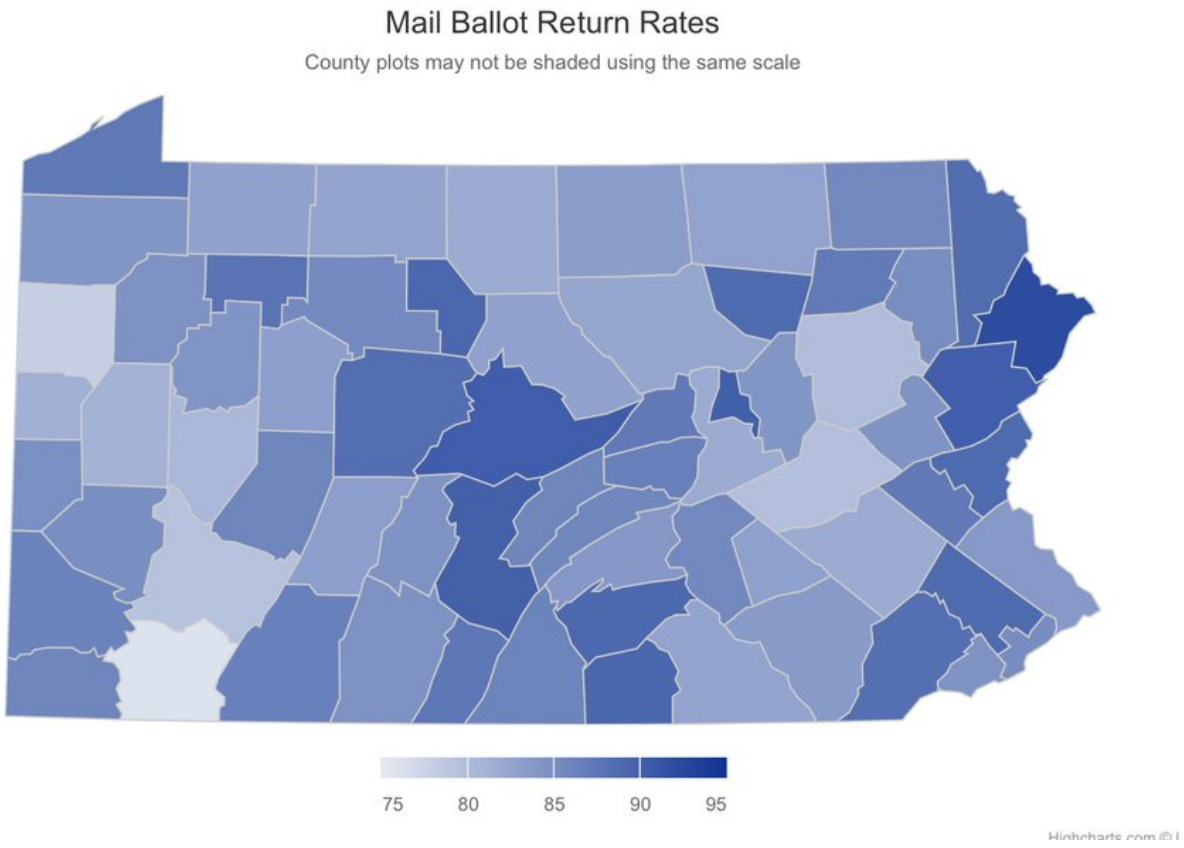

Last Report: 11/18/2020
Source: Data provided by Pennsylvania Secretary of State's office

Mail Ballots Returned | Mail Ballots Rejected | Mail Ballot Requests

Mail Ballots Returned: **2,629,183**

Mail Ballots Returned by Party Registration

Party	Returned Ballots	Freq. Distribution	Requested Ballots	Return Rate
Democrats	1,702,623	64.8	1,941,436	87.7
Republicans	623,098	23.7	785,083	79.4
Minor	20,090	0.8	25,369	79.2
No Party Affiliation	283,372	10.8	336,235	84.3
TOTAL	2,629,183	100.0	3,088,123	85.1

But it's just one exit poll you may say

CNN exit polls confirm these numbers
https://t.co/2ZNCULPZQq

NY Times exit polls also confirm

https://t.co/EK1AJDDTvW

And ABC exit polls

https://t.co/HoPKueP7nx

And by NBC exit polls: https://t.co/gpY6ouNBla

And it gets worse!

These extra 100K-200K votes had to come from somewhere because the final votes needed to approximate the returned ballots

You can't add ballots out of thin air

This implies that these are ballots cast for other candidates and were flipped

You wanted proof, here it is

There is no way to harmonize the data from returned absentee ballots to Biden's 1,995,591 total absentee ballot votes

There's just no way Biden to have gotten 76% of returned absentee ballots in Pennsylvania

It should be clear for anybody to see

Final thought

Send out generic absentee ballots (like this one for PA) and you've made a mockery of election security

Only way forward is an immediate investigation to clarify why this blatant irregularity exists

That's it, please remember to RT the first tweet in this thread!

OFFICIAL GENERAL ELECTION BALLOT
COUNTY OF LAWRENCE
Commonwealth of Pennsylvania
November 3, 2020

SEAL OF LAWRENCE COUNTY, PENNSYLVANIA

INSTRUCTIONS TO VOTER:

1. TO VOTE, YOU MUST DARKEN THE OVAL (●) TO THE LEFT OF YOUR CHOICE COMPLETELY. An oval (●) darkened to the left of the name of any candidate indicates a vote for that candidate.

2. To vote for a person whose name is not on the ballot, you must darken the oval to the left of the line provided, and write or print the name in the blank space provided for that purpose.

3. Use blue or black ink only.

WARNING

If you receive an absentee/mail-in ballot and return your voted ballot by the deadline, you MAY NOT vote at your polling place on Election Day.

If you are unable to return your voted ballot by the deadline, you may vote a regular ballot at your polling place on Election Day if you surrender the ballot and the envelope containing the voter's declaration to the Judge of Elections to be spoiled. You will vote a provisional ballot if you do not surrender your balloting materials.

Daniel J. Vogler

Jorgensen got 53,318 votes on election day

Not 500K+ as in the chart

But doesn’t affect the analysis in any way

Sorry for the typo

Fixed the error for Election Day votes for Jorgensen

Again, doesn't affect the analysis which is purely on absentee ballot votes
