In 1917 Rothschild offered Balfour
The Domainbon regime, the World Bank, and plans to manufacture military weapons as part of a set of promotional offers to allow them to seize the land of Palestine,
In 1926, he publicly admitted Balfour
"Dominions System in Elections rigging"

In 1926, he publicly admitted Balfour
"Dominions system for rigging elections"
The most important of them is ..
(Canada, Australia, New Zealand, Newfoundland, South Africa, the Ireland Free State, India, Pakistan, Sri Lanka, Nigeria, and Kenya)

as independent communities within the British Empire
Dominion = Global Domination = COVID-19 Vaccine

Now .. did you know? Meaning of the term Dominion?
Allow me to repeat it in another way ..
Dominion is the independent country of the British Commonwealth of Nations. In other words, they are the autonomous states that were once subject to the sovereignty of the United Kingdom

A facility was appointed for both the British Empire and the Commonwealth of Nations, beginning in the latter half of the 19th century
It includes many countries at different periods, including: Canada, Australia, New Zealand, Dominion, New Finland, the Union of South Africa,

the Irish Free State, Pakistan, Dominion of Sri Lanka, Kenya, Jamaica, and Nigeria.

Britain invented the Commonwealth system (the Association of English-Speaking Peoples) to preserve a kind of authority over the countries it controlled, and it began its formation with Canada in 1867 AD, after it succeeded in repelling the United States from it.

And after the First World War, she drew up a policy that she called "the imperial preference."

To achieve a color of economic and political self-sufficiency, in solidarity with the Dominion and Crown colonies.

The Imperial Conference in 1930 AD accepted the Balfour Report, in which it declared that Britain and its independent possessions are equal in their rights to self-government within the British Empire.

But they are all linked to the crown by a bond of common loyalty, and these principles were expressed by the Constitution of Westminster in 1931, which provided for the establishment of the British Commonwealth,

made up of independent countries linked together by the bond of citizenship to the League of British Peoples. She outlined this policy at the Conference of Chiefs of the Empire Ministry

Which was held in Ottawa (Canada) in 1932. Until 1944, the territories subject to the British Crown belonged to three major ministerial divisions:

A- The Dominion Ministry, supervising Canada, Australia, New Zealand, the Union of South Africa, and the Free State of Ireland. South Africa had a special status,

On the basis of the system established in 1926, on the basis of equality, autonomy, and loyalty to the British Crown. When those countries were freed from British oversight, they continued to establish special relations with Britain,

so the Dominion Ministry turned into: the Ministry of Foreign Affairs in charge of relations with the family.

B- The Ministry of Indian Affairs (with the Ministry of Parliament attached to it) and it was managing India's policy, responsible to the Westminster Parliament for the government of India,

and taking decisions directly without referring to the leaders of the country, although Britain had promised India the Dominion system since 1917.

Now that I have listed and explained to you the origin of the dreaded Deminon System ... let's all remember ..
