U better listen.

Our forefathers saw and axe provision for 2020 election fraud. We were warm last time [ds] tried to take America.

Then later after ww2 we didn't listen to Patton or McCarthy.

Then later when one man and his brother publiQly said he would begin to drain the swamp the [ds] murdered both of them in broad daylight

Now here we are. Massive n your face voter/ballot fraud all across the natyon. They think we will just slumber again. Well fuck that. We will rise up. Ob#ur PQTUS/WarFighters r poised to crush this insurrection with swift extreme prejudice.

So listen up. Shit is on the fan already. Blood has been spilled in Frankfurt and on many American city streets. More will spilled. Stay safe patriots. Let the pros do the heavy lifting. Protective ones and the vulnerable nearby. Stay inside. Hunker down.

Pray for PQTUS and the generals without ceasing as they make hard decisions n the coming days. PrAy for our WarFighters as the crush this insurrection and try the black hats. This will cause other nations to follow suit. The [ds] cannot stop what is about to happen.

Keep pushing patriots. The rest of you snowflakes we know. We r coming. Run.
