This was an awesome video by SGT FRIDAY (@MagaKarma1) didn't know if everyone has seen it or not, but just wanted to go back through and make sure all of you know what happened.

1. On election night before any of the chaos occurred, Joe Biden was getting more votes in Republican Districts. Florida tells the election night story. There is something uniquely different in Florida and that is Miami-Dade, Broward, and Palm Beach County. They are heavily

Democratic counties, Florida is a 1 point state, in over 20 years Florida has been decided by one point or less.

2. But on election night 2020 Donald Trump received more than 225,000 votes in Democratic districts. When Donald Trump ran against Hillary Clinton in 2016, in Miami-Dade, Donald Trump received 333,000 votes and election night 2020 Donald Trump received 532,000 votes. Trump went

up by 199,000 votes in a Democratic strong hold. Florida was telling us two things, that Donald Trump's outreach to minority communities was working. Joe Biden out performed Hillary Clinton in the panhandle. They took the mail-in ballots and sent the Biden votes into

Republican districts.
