1/Turns out the person in the pic is the cousin-in-law of the Trudeau fam!■

Aside from @MsAmyMacPherson's political opinion, she lays out damning facts on how political canvassing data + close connections (incl. 1 at a hospital) were used to lure kids.

https://t.co/bg4aJlWXzR

2/The canvassing platform, 'The Liberalist', was jointly developed by NGP VAN in the US (used by Obama and the DNC) and Tom Pitfield (more below).

The database included private data of children & youth and was built using WordPress, a platform with security vulnerabilities.

3/It is uncertain if today's https://t.co/z65Z9DaFxM platform is housed in the US, Canada, or another country.

In NGP VAN's privacy policy it states that it is a data processor. In the LPC's privacy policy, there is a lack of transparent on where its data is even housed.

4/MacPherson states that many individuals had access to this database at the time, some of whom were:
- Jared Nolan, a Liberal riding exec, a convicted p*do, distributor of fake passports and CP, and a former hospital employee who abused access to patient data to lure children.

5/
- Tom Pitfield, brainchild of the original platform and JT's childhood friend who also happens to vacation with the JT family. Tom's father, Michael, was PE Trudeau's confidant. Tom is now the co-founder of thinktank Canada 2020.

6/We also know that JT's former roommate, Christopher Ingvaldson, was convicted of CP matters as well.

7/Benjamin Levin, the cousin-in-law of the Trudeau family, was also convicted of CP matters. He had a personal interest in incest.

As MacPherson personally relates as a victim, "incest is a learned behaviour", just like being a child predator.

8/MacPherson also includes in her statement that Trudeau's family relatives are all scattered in positions where one may think is compromised, such as the AG for Canada.

Is this really government for the people that's based on the constitutional rights? I don't think so.
