Anyone else have an issue with Dominion Voting Systems establishing its servers via Scytl in Frankfurt, Germany while selling its intellectual property to a Chinese bank in Toronto? @POTUS @LLinWood

Why are there so many Chinese and Canadian moving and unseen parts to a U.S. national election featuring a vote to determine the president?

Speaking of banking in Toronto, don't forget about Toronto Dominion Bank. Who is Frank Giustra.

Recall how HSBC was funding Bill Clinton's speeches? Again – modus operandi!

All of this ties into Uranium One because that's where the aforementioned people and entities vector.

Let's now consider James Comey's former employer, HSBC, also known as HONG KONG SHANGHAI BANKING CORPORATION. Here, we care to take note that runs this through Canada and specifically, Toronto.

What did Comey do while at HSBC?
