1/ The areas Trump won (Republican areas) Are were the scam was planned and ran on election night.

Example 1: Georgia
37 Votes for Trump went to Biden

Example 2: Wisconsin
6000 Republican votes went to Democrat candidates. (The Glitch)

2/ The realization the steal would fail:

The Florida vote. FOX news calling Arizonian was a key word that Florida was lost big time.

Here is why. The States who shut down counting. All did so when Florida results poured in showing Democrat areas were voting Trump BIG TIME

3/ You see like you I watched election results in real time. But I went further then most. I kept open a 2016 county by county map as well the 2020 map. And I compared 2016 to 2020 as the election took place.

And I found something crazy. Red areas in Texas and Florida.

4/ Were voting for Biden way more then Hillary. And Even more specifically in Texas. Oil areas voted for Biden a shit ton more then Hillary. Look at Pennsylvania Fracking areas, Again Biden killed Hillary in Republican areas. I was like WTF is going on ?

5/ Back to Florida as the Trigger.The Pan Handle Biden kills Hillary. And Nation wide or were Dominion is used this pattern applies

Trump wins his red areas , But Biden over performs while losing in areas he could never win anyway

Thats how they were padding Biden's vote Total

6/ FLORIDA : : : Red Alert FLORIDA : : :

Broward County , Palm Beach County , Miami Dade County

All 3 are Democrat Strong Holds. And Joe Biden did as well as Hillary did in 2016.

@realDonaldTrump Who won the state by approx 400,000 votes.

7/ Was given 277,000 More votes in those three Democrat Strong Holds compared to 2016 !!

In sum Florida was the Deep States Ah ha moment. Trump was still going to lose those Democrat strong Holds. But his vote gain inside them was to big for the 'Red Area Steal" to cover it

8/ Upon Seeing those 3 counties. The D/S realized padding in just red area's for Biden. Was not going to be enough. So The D/S had 6 states stop counting. And all six of theses States. Stopped counting in only Democrat Strong Hold districts. Were they had to stuff in Ballots

9/ I said this Nov 4 at 3 am .. The Georgia hearing today. Confirms what I just laid out and have stood by the whole time.

An Audit of the Physical Ballots is the only remedy to know the true count of the election. And it needs to be done in all districts Red and Blue
