■Things I've PROVEN since the day after the election■

1: Dominion products have wifi cards.

2: Dominion can be hacked with or without internet access.

3: Iran/Pakistan/China/Russia all interfered in this election with cyberwarfare.

(cont)

4: Swing state decision makers and IT departments were woefuly ignorant or incompetent.
5: Swing states were often lobbied or financially connected to voting companies.
6: All major voting companies were owned by secretive Private Equity Funds.
(cont)

7: First person to publish the Dominion Manuals/training videos on Twitter.
8: First person to publish the Dominion swing state contracts on Twitter.
9: First person to post the boxes of 2020 primary absentee envelopes from in the Freeman video.
(cont)

10: First person to suggest TEST DECKS were used to ballot stuff.
11: First person to suggest an envelope to ballot count for all absentee ballots cast.
12: Prove that Dominion schemas are NOT air gapped like they claim.
(cont)

13: First person to demand public access and third party analysis of the Dominion Audit Logs (still not produced to this day, even though they are a selling feature of "transparency" according to Dominion)
(cont)

14: First person to demonstrate federal interest allowing for federal seizure of voting machines in swing states due to their use of HAVA grant funds.
